RELEVANT EXPERIENCE

Software Engineer @ American Family Insurance
Jan 2017 - Present // Madison, WI

› Utilized C# to develop methods for automating processes within TFS
› Developed a portal application for I/S to help centralize tools and information using ServiceNow custom application interface
› Collaborated directly with application teams to configure Dynatrace business transactions, alerting, and dashboards
› Developed a python script to identify software counts on individual machines to analyze trends and reduce software licensing
› Support I/S with reusable components, guides, code issues, leveraging of tools, and tool assessments

Internship in Network Security and Management @ Lycon Inc.
May 2016 – Jan 2017 // Janesville, WI

› Maintained hardware and software, including servers, network nodes, and wiring
› Analyzed network needs and contributed in the design of network architecture
› Installed security cameras and implemented a network security system
› Configured a new router for VPN usage at every plant for better connectivity, improved security, and access to restricted resources

Applied System Development Project @ UWSP Hockey
Jan 2016 – May 2016 // Stevens Point, WI

› Developed a stat-tracking application to allow our coaches to better record and analyze video using an android tablet
› Demonstrated formal presentations and group dynamics to solve application problems
› Used a team approach to analyze, design, and document the application

UWSP Men's Hockey @ UW-Stevens Point
Aug 2014 – Mar 2016 // Stevens Point, WI

› Dedicated over 40 hours a week to training, practice, and games
› Achieved highest team goal of winning a National Championship
› Cooperated with professors to setup up separate exam times or makeup work

Lawrence University Men's Hockey @ Lawrence University
Aug 2012 – Mar 2014 // Appleton, WI

› Voted freshman of the year by my fellow teammates
› Awarded all-conference honors

NAHL Hockey Player @ Port Huron Fighting Falcons
Aug 2010 – Mar 2012 // Port Huron, MI

› Selected as team captain through leadership on the ice, and in the community
